WORK EXPERIENCE

Biddz

Jun. 2022 – Nov. 2022

Backend Engineering Intern

Berlin, Germany

- As an intern working in the backend, I got to help develop the backend of an app using FastAPI and Python.
 - Dockerized containers on Google Cloud Platform with auto CI/CD pipelines
 - Helped implement different microservices for our architecture
- Implemented various crawlers for social media and created API endpoints for them.
- Created a fraud prevention system / process.
 - Worked closely with the payment provider API

Aklamio

Nov. 2018 – Oct. 2020

Working Student Backend Development

Berlin, Germany

- Worked as a working student with a Ruby on Rails app.
- Implemented an admin interface
 - Worked closely with Key Account Managers to help their needs with the app
- Wrote several scripts to import data to the database
